Hongkong, March 27th 1894.

in London on the 21st ultime. The meeting appears to have been purely formal, the speeches being reserved for the after dinner Co., Inmited, at a meeting heid at Singapore on proceedings. The Chairman, Mr. W. KES- the 16th inst., presented the following report wick, in proposing the toast of the evening. Prosperity to the China Association, gave occounts from the beginning of the liquidation n brief but interesting review of the work of planation necessary as the figures speak for the year, in the course of which he mention- themselves. The amounts written off as irre ed with approval the efforts made to secure coverable for losses on test property, mortgages, the opening of the West River. At a later depressed state of the market for land and period of the evening Sir Thomas Wade, house property during the time these investspeaking to another toast, also referred ments of the Company were being realised, and to the same subject, but in a different vein, very great depreciation in property generally It is to be regretted that his remarks have not been reported in the London and China Express verbatim, for considerable weight the hands of the Straits Lasarance Co. in Lonmust attach to anything said by the ex- dou. There have been dividends declared to Minister on such a topic. Taking the re- assets show a sum of over \$50,000 still to be dealt port as it stands, however, Sir Thomas is with but there are some possible claims that reported to have said that if he were now may have to be met on business previous to the "that it would come without the aid of a "foreign hand. He did not look forward to "an immediate enterprise on the part of the "Chinese which would be really successful. that the Hongkong Fire Louisnace Company, slightly. Charmian dropping back to whipper " eigners or the Chinese, he doubted whether been obliged to reduce its reserve fund although at the Dock buoy, and they crossed the line as "much would result from it. The district that still remains at the substantial figure of a foll ws;-"was an agricultural one, and he did not willow of dollars. The point to be noted, how the earth that they cannot recommend any recommendations and the did not willow of the representations made from all quarters they undertook to contribute largely to the aver, is that the Hougking Fire Insurance Payme 2.8.45 Stella 2.21.45 the earth the doctor of the representations made from all quarters they undertook to contribute largely to the aver, is that the Hougking Fire Insurance Payme 2.8.45 Stella 2.21.45 the earth the doctor of the representations made from all quarters they undertook to contribute largely to the aver, is that the Hougking Fire Insurance Payme 2.8.45 Stella 2.21.45 the earth to the earth a face which is the doctor. It initial cost, and it she come anywhere within that for making any recommendation as of the representations made from all quarters they undertook to contribute the doctor. It initial cost, and to the sample of the come, and if she co "same thing, but it had never been at any vided this dash of cold water does not to bring about the opening of the river pectations should not be encouraged. But very fair appraisement bas been made of the trade that would be likely to result were steamers allowed to ascend as far as Wuchow. and to call at various points en route. It is not expected that at Wachow a second be openings for the establishment of a very considerable number of foreign firms. But in a sensibly increased consumption of the district is an agricultural one. But it week. One awaits with interest to beny what is the agricultural districts that are the consuming districts, and the object is to to point out that the shareholders may have reabring foreign goods close to the consumers. to do away with squeezing en route. and to make the laying down charges see. It is corely impossible that the chairman.

"foreign intercourse seems to have, in a great measure, become dead. For a long period there has been nothing like the development of that enterprise which in mercial points of view that commerce "but of the Chinese with whom we came in pative capitalists and in the present state of foreign trade in had for some time past been in bad health.

which now pass current in our Eastern Colonies. by an Imperial coinage. It has been suggested calculable relation to the rupes.

It will be seen from the Appendix that, 328,520 besides the correspondence which has passed 30,317 through the medium of the General Committee, 91;414 The Association in Shanghoi has been in independent communication with the Government of Ludia upon this point. Its representations of the evil consequences to trade between India and China hat might be expected to ensue from the close of the Mints were mot by a request for 40,714 ang practical suggestion it could offer for the 4406 rehabilitation of the metal in which both India 251,635 and China are interested The exhaustive letter in which the Shanghai Committee responded to this invitation contains a anggestion for a British dollar which should, in effect, be a double rupen; but it proposes to achieve that object by raising \$541.812 the value of the rupes. If that solution be dismissed as impracticable, for the reason that Ludia is not likely to favour such an alteration, it has been suggested that the relationship might be attained by coining a British dollar. equal in bullion value to 24 ropees. The viexican dollar, which is somewhat toughly minted, appears to vary between 4164 and 4171 grs., 593 to 802 fine = 374-6 pure. The ruppe is 180 grs. 916 fine = 165 pure. A coin worth 21 rupeas would therefore by 3711 391,414 pure, or about I per cent worse than the Mexican dollar, The proposed relationship between the two coins may appear useless so long as the policy of the Indian Government neutralises it by placing a flotitious value on the rupee; but may be worth consideration in view of a possible eventual return to a cliver level, when it would obtionaly be convenient if the correcty of our Eastern dependencies were on an inter-

oughgeable basis.

HONGRONG COST OF ADMINISTRATION. A letter was received from the Hongkong Chamber of Commerce, in March, transmitting opples of a protest recorded by the unofficial members of Conneil against the Appropriation The increasing difficulties cans d by the per- Ordinance for 1893, together with an explanabetween us and the sun and, consequently, ob- passes entirely to the west of China proper, so sistent demonstration of silver have engaged tory letter to the Secretary of State asking the auxious attention of the Association both in that in independent commission, i.e., one consourcing us and the moon goes round the But what may we hope to see! Not any of England and the Far Bast. When it became sisting of memb is of the community unconnect. arth once in a month—mounth—it would seem the splendones that burst forth as the solar disc known, early in the year, that the failure of the ed with the Government, or at least of a maearth once in a month—moonth—it would seem the spicial of at least of a minute of the covered of the cove there would be it the moon's path lay in the corona, shooting forth its silvery rays far beyond the hope of accessing the fail of the rupse, the fane Administration. The main grounds of observe were also as the earth's nath round the sun. The solar disc; no blood red prominences driver. Association in Shanghai telegraphed requesting jection to the Appropriation Ordinance were But it does not. The moon's path, or orbit, ing about his limb. All these will be blotted to General Committee to urge H.M.s. Govern-Lihat it was based on an enhanced a lab of salaries out it does now the most five degrees to that of the out in the radiance of the small rim of light he ment to delay its decision till the views of the adopted two years previously at a time when the earth, and the consequence is that an eclipse will show even on the line of centrality.

British community if China could be faid before cost of living and house rout had become inflated,

But we shall see, weather permit, ing. a critical it. The request was promptly submitted to the but which was no longer applicable now that British community if Ching could be laid before lost of living and house rout had become inflated, to be near to or to cross the orbit of the earth and interesting eight; the suo's disc-out off by a Treasury, and communicated by it to the Committees exponses but fallen to their normal level the soliptio) whom it is between the earth and circular shadow: just as the writer has observed | mittee which was sitting under the presidency of and the resources of the colony had been reduced the sun. In other words, an eclipse can only (Warch 21) a partial colipse of the moon, which Lord Herschell. The Shanghal Memorial resolved by the prevailing financial depression. It was the sun. In older worth, an ecuparation that Lord line and like the lunar beams and the finish. London at the end of March, and was about that Lord, tipon, while refusing to line will join the centres of the sun, the moon, jug of this article. This in itself is worth for the consideration of Her Majetya Govern disallow the Appropriation Ordinance, would and the earth. If the orbital motion were noting. And we may, in addition, notice a ment in April together with a letter pointing acquirace in the request for a Committee; and equable colipses would occur at regular intervals. perceptible difference in the intervals between lacin as the support of the Association had been But they do not; and for this reason. The light) and if circumstances favour us yet another and the Far East that would result from a distance only for that proposition, your Comto report the cleath of one of the early foreign out the proposition, your Comresidents of Japan, though he had not recently points (nodes) at which the moon's orbit outs phenomenon may greet our eyes. Just as the tarbance of the silver level which had favoured mittee did not conceive themselves required to points (nodes) at which the moon's oron outs phenomonous may green to impinge on its growth. It was shown that any attempt to pursue the matter further. The concession that of the moon's orbit.

the carth are not fixed points, but move clark circle of the moon is about to impinge out its growth. It was shown that any attempt to pursue the matter further. The concession that for the sun's disc, that In marry may seem to liok impart a fictitions value to the cupse would be mas however, infortunately neutralised by these an illustration from property. Let the up the approaching shade with tony as of blood to set up between India and the Farther East relaxation of the Governor of Hongkong to admit central cage represent the ann, and the different red light. These are fixnes of blazing hydrogen the very barrier which was already emparrassing the preponderance of unofficial members which colony with amusement at Christmas and New compection with Japan began in Nov., 1861, central cage represent the path of the that burst from the solar surface. On demand THE TRANSVAAL AND MASSONALAND. - I onnon, 11th March, ON MANILA. Advices from the Cape state that General - On demand Jonbart has issued a manifesto in which he urges ON SINGAPORE the Transvaal Burghers not to emigrate to On demand Mashonaland, thereby betraying their donntry | Sovereigns Bank's Buying Rate. 10.05 British Empire, and to stamp out the Transvail. which their fathers, with their blood, set free

in connection with the Budget for 1884-95 The next meeting of the Committee will take place on Wednesday, when the valuations will come under discussion. Up to the present no. material changes have been suggested. BOMBAY, 8th March The Millowners' Association despatched the Dakin, Cruck PACC following telegram to the Government of India: Dairy Farm Controlled regarding the Tariff Bill, and an influentially Fenwick & Co., Geo. signed petition is being sent to the Sheriff ask- Green Island Coment ing him to convene a meeting in the Town Hall H. Brick & Cement. on the 14th instant for the purpose of protesting against the exemption of cotton goods and yarns from import duty: -The committee of the Bombay Millowners Association respectfully submit that, in view of the financial difficulties of the Government of India, they uncomplaining. ly submit, with some expections, to the indirect tax on their industry by the proposed import duties on many of the stores used in their mills and the further dislocation of their trade which ass already taken place, owing to a heavy decline in China exchange consequent on the proposed them allowsduty on silver, which has still further depreciated the value of that metal, but they most strongly protest against exemption from taxation of such varns and piece goods as cannot be manufactured in India, such exemption being understo das a sacrifice of India's financial requirements to the unjust demands of Lancashire, who, by requiring that her own manufactures shall be exempted, forces the Government of India to exempt similar goods manufactured in other countries which bave placed heavy duties on India's produce. The committee would further urge that an import duty on fine yerns and piece-goods would not be protective of local industries, and that the incidence of such texation would not fall upon the producer, but upon the wealthy classes, who are the only consumers of such goods, and who have never complained a Further such duty is the only means of obtaining some return from Native States for the large sums expended on the defence of the empire. CALCUTTA, 6th March. The Angle-Indian Association have formed a. resolution to ask the non-official members of the Viceroy's Council to protest in Connoil against

from the British yeke.

THE INDIAN TARIFF BILL.

Mr. Finlay, in reply to a letter from the

Chamber of Commerce, stated that no measure

of general taxation other than that now before

the Council is contemplated by the Government

CALCULTA, 5th March

the exclusion of cotton and Manchester piecegoods from the list of taxable articles. It is probable that many public associations will pre-W chai Wareh'se Co. sent similar patitions. CALCUTTA, Sth Murob.

The Select Committee of the Imperial Legislative Council on the Tariff Bill practically concluded their labour on Wadnesday, but they meet again on Friday to pass their report. the tax on iron and steel from 5 to T per cent. Older Malwa \$660 which means the return under this bending will Old at Malwa \$6 0 be three lakhs instead of fifteen. The tax on Patna (New) \$615 batching and lubricating oil is reduced from 8 | Patan (Old)\$6474/655 to 5 per cent. Imported paper is to be taxed 5 Benares (New)...\$635 per cent. ad valorem.

At Saturday's appoint mooting of the Legis lative Council the report of the Select Comthreads are not included in the tariff schedule

sing is likely to be taken, but apparently the Bill will be carried by a solid official vota unless some compromise will meanwhile be arrived at The menting on the cotton duties at the Cown all this afternoon was a most offective demon-

and natives, and Mr. Pach, with an experience of over thirty years in Calcutta, sold there was never such another gathering, so large, representative and unanimous in the capital. All the speakers were emphatic in their denunciation of the proposal to exempt the cotton imports. Mr. Stuart said that it was trilling with the intelligence of the people of India for the Go-vernment to declare that while they had a deficit of three and a half orores they intended to raise DHINA COAST METROROGOGICAL REGISTRE only one and a half. Again the Government would have to search for further means of income and if they succeeded in billing the anananoction public to sleep by promise of no further general taxation we should only have oursolves to thank if the income tax was doubled or some other irritating direct tax enforced next Whattvostock year. Mr. Allan Arthur said gross in instice was being done to India in attempting to administer her affairs from other than an Indian

be her legitimate financial independence. LONDON: 9th March. The Standard, in an article to-day, remarks that practical politicians are forced to consider. the importance of the Lancashire vote: and recommends the Indian public, instead of wasting ts edergy about the import duty on outton goods, to utilize the occasion to force attention o the paramount becessity of a rovision of all branches of videregal expenditure.

ALLAHABAD, 12th March. At a Council meeting on Saturday the Tariff Bill was carried by eleven votes to seven, all the unofficial members roting for the amendment that the Bill be referred to a committee with a view to including cotton among the dutiable articles. The import duties were imposed on Salarday morning at all ports. The feeling in Calcutta is that the result of the debate is a moral victory. The undertaking which the Viceroy was able to put forward, in the name of the Home Government, that if after an interval sufficient to judge of the results of the present measure, there was no improvement in the financial position. Her Majesty's Government would be prepared to receive further repre-With the measures now being taken there should be no deficit next. Morob, unless exchange fells shott. See smooth. Weather fair, log at night. On the again below fourteen-pence. The agitation for for N.E. winds. See moderate Weather fine. the inclusion of cotton still continues.

THE OVERDUE P. & O. STEAMER; BOMBAY, 2nd March. Concerning the Rome the P. and O. agent here says she was expected to reach Aden early yesterday morning but has not arrived, and advices from that port have been received to the effect that the same company's steamer Ganges and H.M.S. Pigeon have gone in search of her, The Rome underwent thorough official survey before departure and was in perfect It is not considered there need be any unwiety. The delay is probably caused by some

The Rome arrived here at midnight last night having been detained owing to the forward crank pin heating and the brasses becoming fused while the steamer was proceeding at a high rate of speed. The engineers fitted new bonses ut sea in 24 hours and the Rome then proceeded at the reduced speed of thirteen knots. She will continue her voyage as the engineers are satisfied the machinery is again in perfect order.
